

NEW ZEALAND PLANT CONSERVATION NETWORK
2013 Annual General Meeting and public talk

Mackenzie Basin: A Case for Protection

6 November 2013

5.30pm AGM and Network Awards Ceremony

7.00pm Food and drinks followed by public talk

Venue Wellington City Council, Committee Room 1,
Ground Floor, 101 Wakefield St, Wellington

SPEAKER

Nicholas Head – 2013 Loder Cup recipient

Nicholas Head will present a talk about the opportunities and challenges for protecting the Mackenzie Basin. Nick has been a strong advocate for the conservation of threatened dryland ecosystems of the South Island and will present a case for their protection from the increasing pressure of development. The Mackenzie Basin is a national stronghold for a range of naturally rare ecosystems which in turn host a number of threatened and at risk plant and animal species.
